

Mr Kenny Or, Founder, Little Green Feet Parent-Child Reading Club

Little Green Feet Parent-Child Reading Club (綠腳丫親子讀書會) was initiated by 17 families.

Through “green picture books” and lively stories, the parents encourage their children to think about the relationship between people and land/nature, and be responsible citizens. Each month, they select one place of interest - be it a farm, mudflat, wood, field or a little brook, and invite other families to join their journey into nature. Together they read picture books, and adults and children take turns to "play" with stories.
