Parent Empowerment

Today's parents seem totally get lost in nurturing their overprotected children. In this pampered generation, how are our kids affected by such parenting style? How the papa and mama enrich their lives so to accompany their children and get growth with them in this generation? In this session, we would like to discuss the 'Tips of 7E' on how to be a true parent: Ensure, Example, Empathy, Empower, Embrace, Entrust and Enrich.
